

SHAPEC

# SHAPEC CONCEPT OF OPERATIONS (CONOPS) IMPLEMENTATION

Standardization Management Working Group  
(SMWG)

February 1998

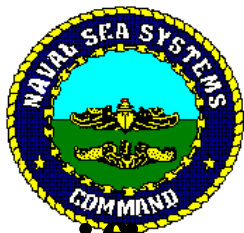

## BACKGROUND

- **Last “official” version of CONOPS sent out for chop in September 1997**
  - Activities asked to chop included Fleets, TYCOMS, NAVSEA codes, SUPSHIPS and Shipyards, PERA’s and SUBMEPP
- **Comments from this review incorporated into 13 November version of CONOPS**
- **SMWG Meeting in October 1997 identified need for review of format and substance of CONOPS**
  - SMWG chartered working group (chaired by SSSD) to:  
“develop a single standard format/outline for developing class specific SHAPEC chapters of the CONOPS. Each chapter to fully document processes by which each class SHAPEC conducts business, including project planning timetables for traditional CNO scheduled availabilities”.

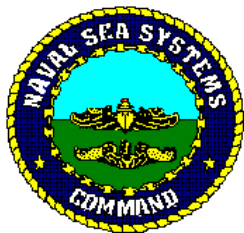

## WORKING GROUP IMPLEMENTATION

- **Working Group first met in San Diego on 18-19 November 1997**
  - Activities attending included:
    - SUPSHIP San Diego (Chair)
    - Norfolk Naval Shipyard
    - SUPSHIP Portsmouth
    - SUPSHIP Jacksonville
    - PMS 400F
    - Puget Sound Naval Shipyard
    - COMNAVAIRPAC
    - SUPSHIP Pascagoula
    - COMNAVSURFPAC

## WORKING GROUP IMPLEMENTATION

- **Significant changes recommended by the CONOPS working group**
  - Break down CONOPS by Submarines, Surface Ships and Carriers vice specific SHAPEC assignments
  - Provide guidance/information for Co-planning efforts (i.e., Continuous Industrial Advanced Planning Process (CIAPP))
  - Revised definition of what SHAPEC will plan to accommodate Continuous Maintenance Philosophy on both coasts
    - CONOPS definition for what SHAPEC will plan includes: “all work assigned to availabilities as defined in FMPMIS, the Quarterly Employment Schedule or Continuous Maintenance Planning Queues.”
- **Working Group met again 21-22 January 1998 to finalize inputs from first meeting and incorporate comments during this second meeting**
  - Final revised “draft” CONOPS, incorporating all agreed to changes, sent out for final review
    - Final comments were due back on 4 February

## CURRENT STATUS

- **Final “draft” version of CONOPS loaded on the SHAPEC WWW Page ([www.shapec.spear.navy.mil](http://www.shapec.spear.navy.mil))**
- **Fleets, TYCOMS, NAVSEA codes, SUPSHIPS, Shipyards, PERA’s, SUBMEPP will be asked to review final “draft” for comments**
- **After final chop, CONOPS will be “officially” promulgated**
